

In₂HOCKEY

TAKE IT TO THE NEXT LEVEL

EQUIPMENT & RESOURCE PRICE LIST

FROM JANUARY 2015

In₂Hockey is a fun, exciting and dynamic game designed for 10 to 14 year olds to help them develop their hockey skills and techniques, and to provide a gradual progression into the 11-a-side version of the game.

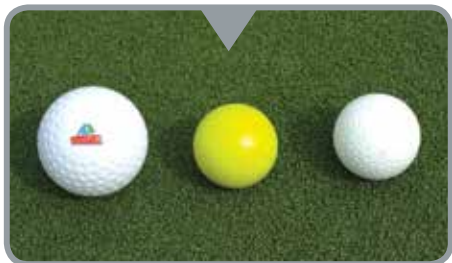

It can be played as a 7-a-side game with goalkeepers, or introduced as a 6-a-side game without goalkeepers. The game is accompanied by specially designed equipment and supporting resources, to help teachers and coaches deliver the game, whatever their level of hockey knowledge.

STICKS

In2Hockey hockey sticks are available in two sizes and are colour coded; 34" sticks are black, and 36.5" sticks are silver. The hockey sticks have been designed to incorporate specific teaching points within the feature artwork. The grip is divided into three zones to help with hand placement and to encourage good technique.

BALLS

In2Hockey can be played with a choice of hockey balls to suit the ability and experience levels of the players. Quicksticks or In2Hockey balls should be used when playing 6-a-side, and In2Hockey or standard balls should be used when playing 7-a-side.

For beginners it is recommended to use a Quicksticks ball, as it is larger and lighter than a standard ball, making it safer and easier for the players to get used to playing the game, and to develop their basic skills. This ball has been specifically designed for use on a variety of surfaces, including artificial turf pitches, indoor sports halls and tarmac/playgrounds.

With intermediate or more advanced players, a lightweight In2Hockey ball should be used. This is the same size as a standard hockey ball, and the reduced weight helps with the further development of basic skills and ensures that games are fast and flowing.

As players become more experienced and play 7-a-side In2Hockey, a standard ball can be introduced to aid their transition to the 11-a-side game.

GOALKEEPING KIT

England Hockey have recommended a particular set of goalkeeping equipment for In2Hockey. This kit contains all of the necessary pieces of equipment required to play the position safely, and if you have purchased other items of In2Hockey equipment or resources you may be eligible for an exclusive discount.

RESOURCES

The game of In2Hockey is accompanied by a range of resources to support delivery. In general, the resources have been designed for use by teachers and coaches with young players aged 10-14. In schools this primarily corresponds to Key Stage 3 of the national curriculum (Years 7, 8 and 9).

The core resource comprises a teacher resource booklet including three six week blocks of session plans, and a series of 47 delivery cards.

Two additional bolt-on resources are also available to support the introduction of goalkeepers, and to help with the understanding of the rules and development of In2Hockey umpires.

PACKAGES - PRICES

- > Schools Pack (30 sticks, 30 balls, 10 bibs, 1 kit bag, 1 In2Hockey complete resource set) £ 605.00
